
… to pay up

Introduction

- In iTip, an individual can add money to his account & can use that amount to tipping waiters and other service people. iTip will then subtract each tip from this amount.
- Add money will be done via bank transfer, paypal or apple pay.
- QR code will generate at the time of registration. As an individual, you can easily transfer money by QR code scanning on your smartphone/ tablet and also use link given on the web version.
- Payment can be done by QR code scanner.
- User can add or withdraw their funds any time.

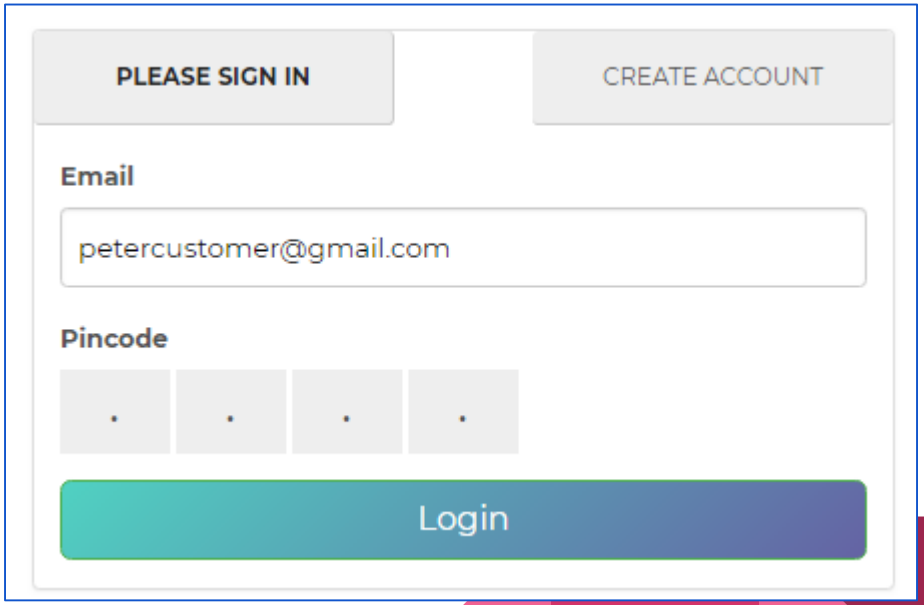
Login

Easy login with email and pin code

For example:

Email: petercustomer@gmail.com

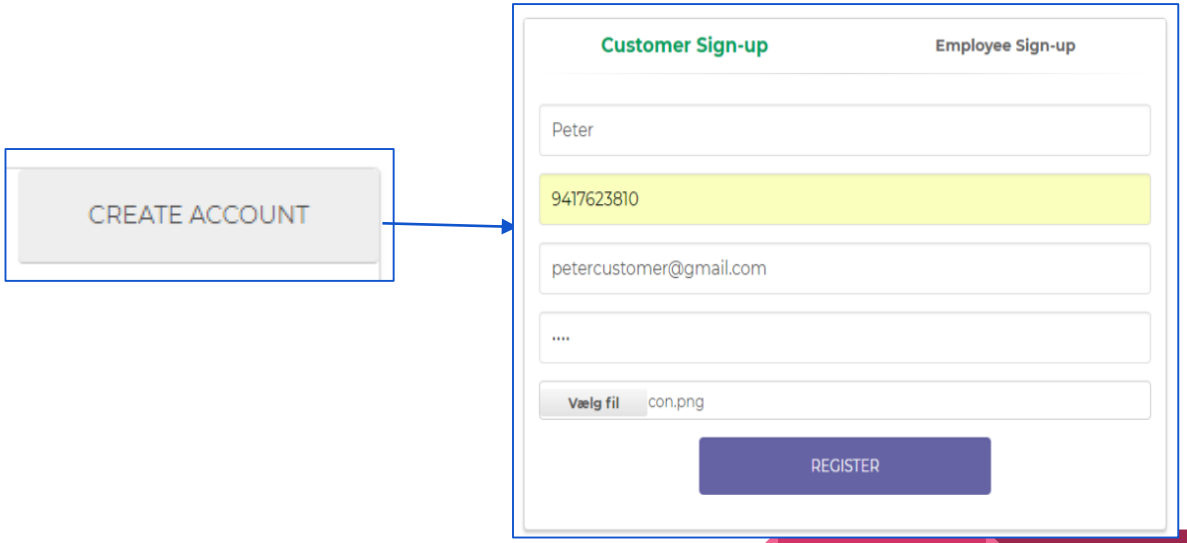
Pincode: 1234



Registration

Sign-up is of two types:

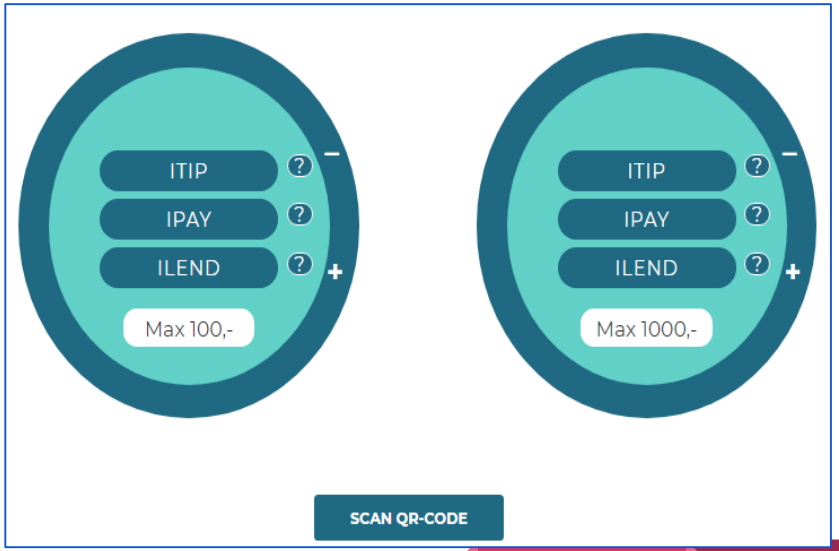
- Customer sign up
- Employee sign up



Home

Three buttons are there as iTip, iPay and iLend.

- iTip: customer can give tip to any registered employee
- iPay: customer can directly pay to registered employee
- iLend: Lender can give loan to any registered employee.

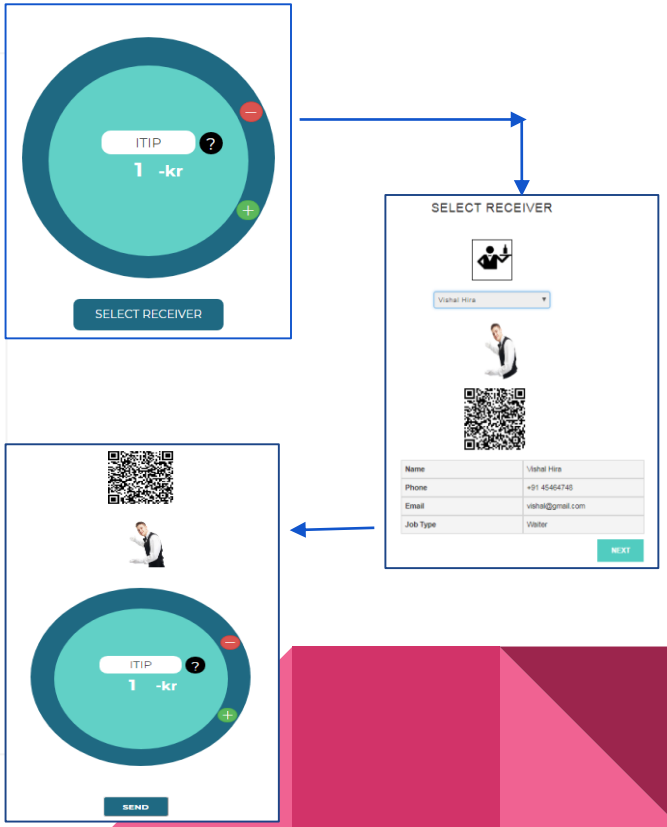


iTip

- This is the procedure shown in figure to send money as a tip to any registered employee.
- Waiter with a ‘iTippl-badge’ can receive the tips.
- User can send tip amount after checking the profile of waiter either he is paying to right person or not.

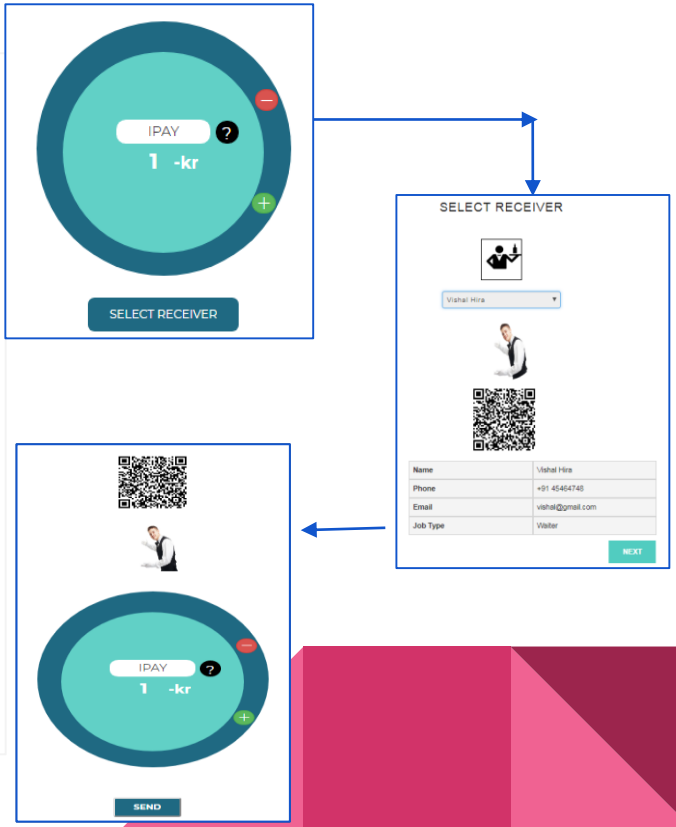
* Customer can also tip others including waiters, a shop or any individual doing other jobs.

Max iTip amount is: 1000,- DKK



iPay

- In iPay, customer can give money to any employee. Figure is showing the steps.
- Same as in iTip, user will check the profile of right person then transfer the money.



* Customer can also send money to others including waiters, a shop or any individual doing other jobs.

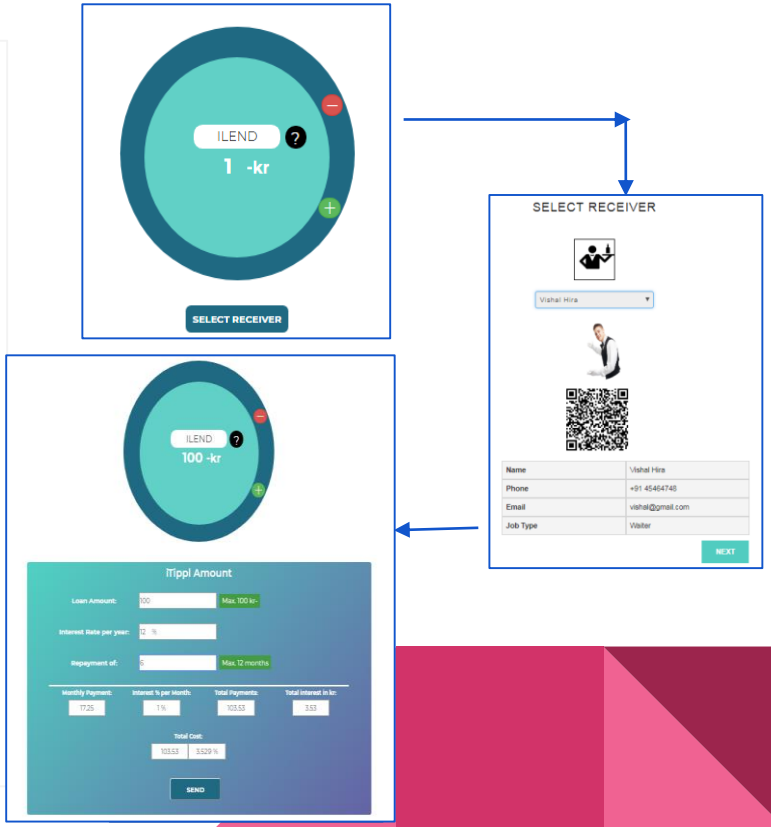
Max loan amount is: 1000,- DKK

iLend

- In this section, customer can also give loan to any registered employee. Steps are shown in figure.
- Lender can agree with loaner and set interest rate and no. of months option to get return back.
- Once a loan is fixed, it can't be edited. So user can set multiple loans.

* Customer can also transfer money as a loan to others including shops, any business or individual..

Max loan amount is: 1000,- DKK



My account + Add/Withdraw

- Loaner will forward the amount by using this screen.
- On this screen, he can save his account details & also we have different options for transaction.
- Add money can be done by mobile pay, apple pay or paypal.
- He can also update his personal details.
